

Infomap Communities in Charlotte, F=1.121 (Node color, size indicates stationary probability)

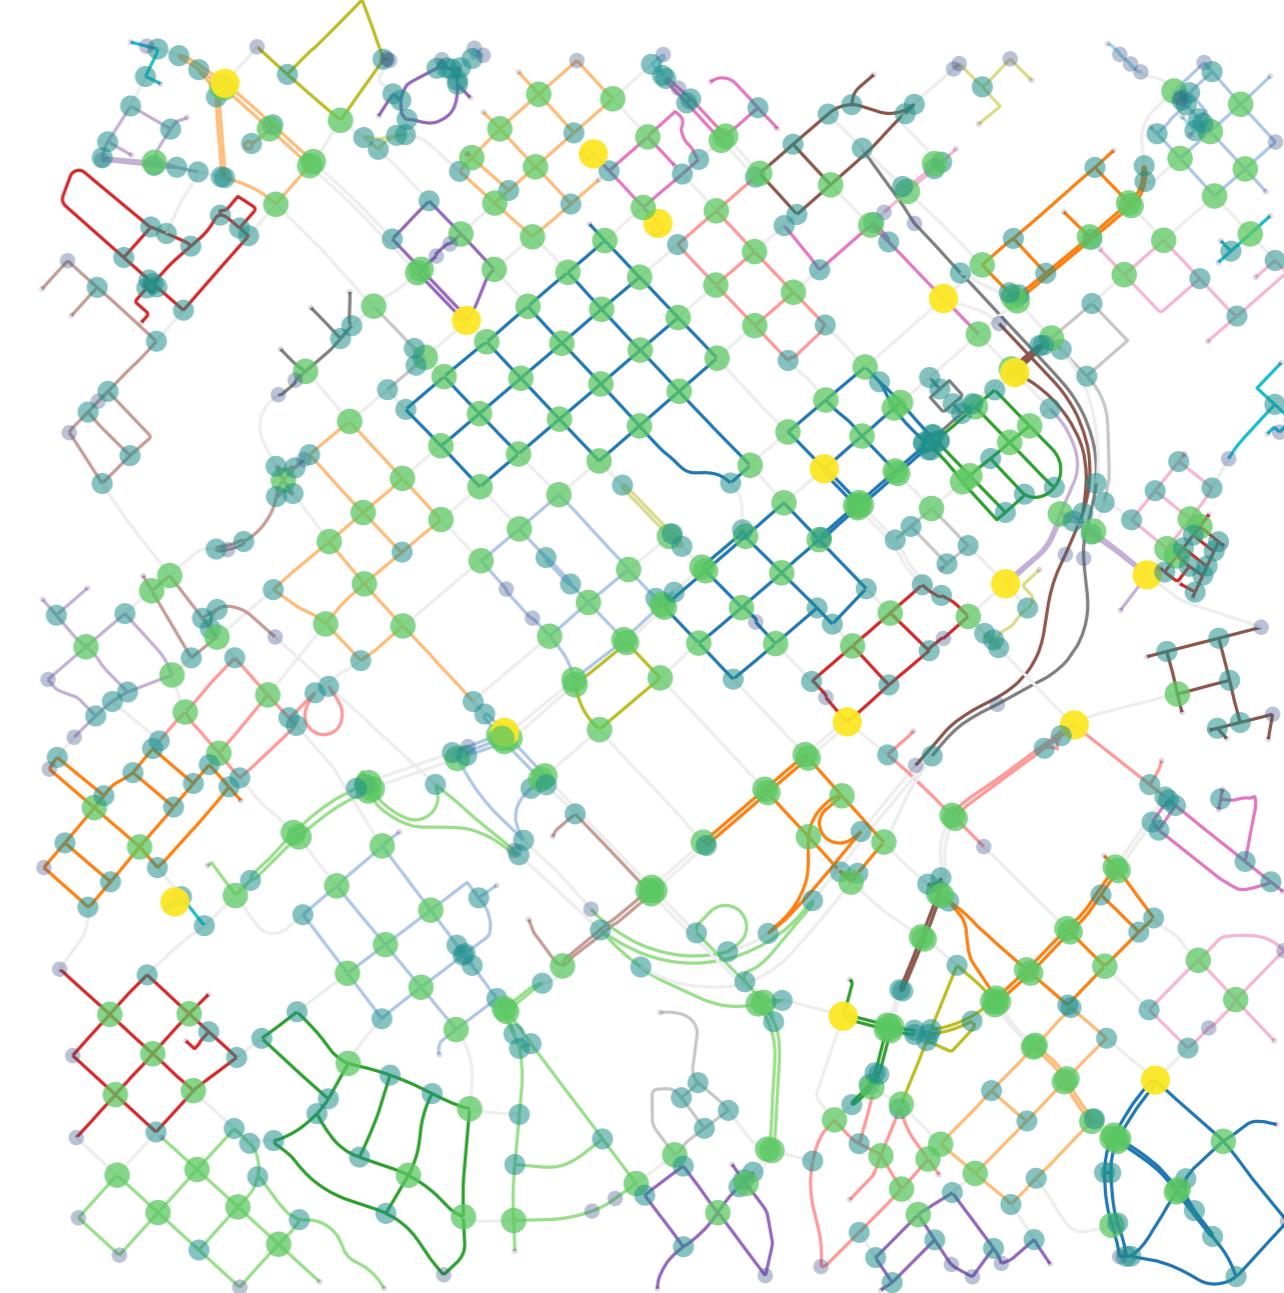

Directed Infomap Communities

log(1 + stationary probability)

A vertical color bar representing the logarithm of the sum of stationary probabilities. The scale ranges from approximately 0.0006 (dark purple) to 0.005 (bright yellow-green). The values are labeled at 0.001, 0.002, 0.003, 0.004, and 0.005.

Undirected Infomap Communities

log(1 + stationary probability)

A vertical color bar representing the logarithm of the sum of stationary probabilities. The scale ranges from approximately 0.0006 (dark purple) to 0.0020 (bright yellow). The values are labeled at 0.0006, 0.0008, 0.0010, 0.0012, 0.0014, 0.0016, 0.0018, and 0.0020.
